Daniel Buscombe

Research Geologist, United States Geological Survey,
Grand Canyon Monitoring and Research Center, 2255 N Gemini Drive, Flagstaff, AZ 86001
http://dbuscombe-usgs.github.com

Personal Details

Place of Birth: Greenwich, London, UK (3 December 1981)
Nationality: British

Contact Information

Tel: 928-726-7216 email: dbuscombe@usgs.gov

Research Interests

I am a geomorphologist/sedimentologist with a principal research interest in sediment dynamics, which includes the physical and biochemical makeup of sediment beds in a range of aquatic environments, the role of sediment heterogeneity in the physics of sediment transport, and the morphodynamics (both micro- and macro-scale) that result from sediment transport, sedimentation, stratigraphy and geomorphological forms. I study the complex inter-relations between fluid flows, geomorphology, sediment transport and sedimentology. I investigate these processes by developing novel field-deployed optical and acoustic imaging systems, and computational algorithms for small-scale sediment hydroacoustics, in-situ particle and bed imaging and flow-field/turbulence measurements.

Education

Ph.D. (2008), Coastal Geomorphology/Nearshore Oceanography, University of Plymouth, Plymouth, UK. *Morphodynamics, Sediment Dynamics and Sedimentation of a Gravel Beach.* Advisor: Prof. Gerhard Masselink.

BSc (Hons), 1st class (2003), Physical Geography with Minors in Environmental Sciences and Biology, Lancaster University, Lancaster, UK. *Morphodynamics of a Ridge-and-Runnel System on a Macrotidal Beach.* Advisor: Dr Suzanna Ilic.

Employment History

November 2012 – present. *Research Geologist, Grand Canyon Monitoring and Research Center, U.S. Geological Survey, Flagstaff, AZ, USA.*

October 2009 – November 2012. *Post-doctoral Research Fellow, School of Marine Science & Engineering, University of Plymouth, UK.*

September, 2008 – 2011. *Computer Programming Contractor, Marine Biology & Ecology Research Centre, University of Plymouth, UK.*

October, 2008 – October 2009. *Post-doctoral Research Scholar, United States Geological Survey, Santa Cruz, California, USA.*

June, 2008 – September, 2008. *Research Assistant, School of Geography, University of Plymouth, UK.*

December, 2007 – April, 2008. *Research Assistant, School of Earth, Ocean & Environmental Science, University of Plymouth, UK.*

October, 2004 – July 2008. *Associate Lecturer and Demonstrator (part-time), School of Geography, University of Plymouth, UK.*

August 2003 - September, 2004. *Assistant tutor, Field Studies Council, Castle Head, Grange-over-Sands, UK.*

Journal Publications

In review/preparation

25 **Buscombe, D.**, Grams, P.E., in prep, Bed sediment patchiness on the Colorado River in Marble Canyon. Intended for *JOURNAL OF GEOPHYSICAL RESEARCH - EARTH SURFACE.*

24 **Buscombe, D.**, Hamill, D., in prep., Benthic imaging in shallow water using low-cost sidescan sonar: data processing considerations. Intended for *LIMNOLOGY & OCEANOGRAPHY: METHODS*

23 **Buscombe, D.**, Conley, D.C., and Nimmo-Smith, W.A.M., in prep., Sorting in the Surf Zone on an Energetic Sand Beach Revealed by Acoustic and Holographic Measurements of Suspended Sediment. Intended for *MARINE GEOLOGY*

2015

22 **Buscombe, D.**, 2015, Spatially explicit spectral analysis of point clouds and geospatial data. *COMPUTERS & GEOSCIENCES*, accepted October 2015

21 **Buscombe, D.**, Grams, P.E., Smith, S.M., 2015, Automated riverbed sediment classification using low-cost sidescan sonar. *JOURNAL OF HYDRAULIC ENGINEERING*, 10.1061/(ASCE)HY.1943-7900.0001079, 06015019.

20 Davies, E.J., **Buscombe, D.**, Graham, G.W., Nimmo-Smith, W.A.M., 2015, Evaluating Unsupervised Methods to Size and Classify Suspended Particles using Digital in-line Holography, *JOURNAL OF ATMOSPHERIC & OCEANOGRAPHIC TECHNOLOGY*, 32, 1241 - 1256. doi: 10.1175/JTECH-D-14-00157.1

2014

Software

1 **Digital Grain Size.** Software for automated analyses of grain size from images of sediment. Source code currently available in Matlab and Python. Webpage `http://dbuscombe-usgs.github.com`

2 **PyHum.** Software for reading, processing and analysis of Humminbird sidescan data. Source code available in Python/Cython. Webpage `http://dbuscombe-usgs.github.com`

3 **Benthic Analysis Tool.** Software for the semi-automation of species identification and measurement in deep-sea ROV/drop frame images. Source code available in Matlab.

4 **Sand Simulation Toolbox.** Software for generating 3D discrete particle models consisting of realistic particles (with a size- and shape-distribution) with user-defined properties. Source code available in Matlab. Webpage `http://dbuscombe-usgs.github.com`

5 **MATSCAT.** Software for analysis of multiple-frequency acoustic backscatter for suspended sediment concentration and particle size. Source code available in Matlab.

6 Generic software for serial data acquisition and real-time display. Source code available in Python.

7 Software for interfacing with machine-vision ethernet video cameras. Source code available in C.

8 **PySESA: Python program for spatially explicit spectral analysis** Software for spatially explicit analyis of point clouds and spatially distributed data. Source code available in Python. Webpage `http://dbuscombe-usgs.github.com`

Funded Proposals

1 Principal-Investigator, *British Geomorphological Society Postgraduate award* (£300) to attend and present at Coastal Sediments 2007, in New Orleans, USA

2 Principal-Investigator, *American Geophysical Union Student travel grant* ($600) to attend the AGU 2007 Fall Meeting in San Francisco, USA

3 Principal-Investigator, *International Association of Sedimentologists Grant* (700 euros) to investigate nearshore bedload transport and bedforms with stereo underwater video cameras.

4 Principal-Investigator, *International Association for Mathematical Geology research grant* ($2000) to develop and trial algorithms for quantification of granular properties and coarse-grain sediment transport from images of the sea bed

5 Principal-Investigator, *Society for Sedimentary Geology Grant* ($500, President's Fund) to investigate nearshore bedload transport and bedforms with stereo underwater video cameras.

6 Principal-Investigator, *Challenger Society for Marine Science travel grant* (£150) to attend and present at ICCE Hamburg 2008

7 Principal-Investigator, *Plymouth Marine Science Education Fund* (£250) to attend and present at ICCE Hamburg 2008

8 Co-Investigator; G. Masselink (PI), D.C. Conley, D. Buscombe., (2012 - 2014) *Proto-type Experiment and Numerical Modelling of Energetic Sediment Transport under Waves (PESTS)*. Engineering and Physical Sciences Research Council, UK. EPSRC EP/K000306/1 (£240,000)

9 Co-Investigator (multiple PIs J. Schmidt and others), (2013 - 2014) *Sandbars and sediment storage dynamics: long-term monitoring and research at the site, research and ecosystem scales*, Grand Canyon Monitoring and Research Center Biennial Work Plan. Glen Canyon Dam Adaptive Management Work Group ($2,911,400)

10 Co-Investigator (multiple PIs P.E. Grams and others), (2014 - 2017) *Geomorphic Processes and Relations Among Flow Regime, Sediment Flux and Resource Conditions on the Green River in Canyonlands National Park*. National Park Service ($232,016)

11 Co-Investigator (multiple PIs J. Schmidt and others), (2015 - 2017) *Sandbars and sediment storage dynamics: long-term monitoring and research at the site, research and ecosystem scales*, Grand Canyon Monitoring and Research Center Triennial Work Plan. Glen Canyon Dam Adaptive Management Work Group ($4,253,400).

12 Principal-Investigator (2015 - 2016) *LOBOS (Limnological and Oceanographic Benthic Observation System): The next generation dual-scale submersible benthic imaging system*, jointed funded by the USGS Innovation Fund ($16,497), the Innovation Center for Earth Science Director's Fund ($17,497) and the USGS Southwest Biological Science Center ($15,000) ($48,994 total).

13 Principal-Investigator (2015 - 2016) *The digital grain size web and mobile computing application*, funded by the USGS Center for Data Integration ($46,417).

Professional Activities

Membership

British Society for Geomorphology; International Association of Sedimentologists (IAS); American Geophysical Union (AGU); Coastal Zone Network (COZONE); The Challenger Society for Marine Science.

Journal Review

Arctic; Continental Shelf Research; Earth Surface Processes and Landforms; Geo-Marine Letters; Geophysical Research Letters; Journal of Hydraulic Engineering; Journal of Mountain Science; Journal of Sedimentary Research; Marine Geology; Sedimentology; Sedimentary Geology; Water Resources Research.

Conferences Organised

On the organising committee for:

1 *The Quaternary Research Association's 4th International Postgraduate Symposium*, hosted by the School of Geography at the University of Plymouth 31st August - 2nd September 2005.

2 *Young Coastal Scientist and Engineers Conference, 2007* (YCSEC 2007) hosted by the School of Geography at the University of Plymouth 19-21 April 2007.

3 *American Geophysical Union Fall Meeting*, December 2007: H60. Linking sediment supply, bed-sediment particle size, sediment transport, and bed morphology in fluvial, marine, and aeolian settings. Co-convened with David Rubin (USGS), David Topping (USGS), and Scott Wright (USGS).

4 *American Geophysical Union Fall Meeting*, December 2013: EP010. Fluvial sediment budgets: Can we do better? Co-convened with David Topping (USGS), Paul Grams (USGS), and Susannah Erwin (USGS).

5 *2nd Multibeam in Rivers Workshop*, March 2015. Co-convened with Paul Grams (USGS), Matt Kaplinski (NAU) and Joe Wheaton (USU).

Skills

1 Community models: General Ocean Turbulence Model (GOTM, `http://www.gotm.net/index.php`); Simulating Waves Nearshore (SWAN; `http://www.swan.tudelft.nl/`); Simulating Waves 'til Shore (SWASH; `http://swash.`

sourceforge.net/features/features.htm).

2 Linux. High performance and distributed computing.

3 Programming/Scripting: Python, BASH, Matlab (proficient); Cython, Kivy, Fortran (experienced); C, R (beginner).

4 Full UK driving licence. Arizona State driving licence. LANTRA sit-astride ATV qualification.

5 Other interests: instrument control, machine vision, LaTeX GUI development, machine learning, spectral analysis, stochastic modelling, image analysis

Invited Talks

1 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 4th December 2004. Talk entitled 'A tale of two storms'.

2 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 18th November 2006. Talk entitled 'A view from the beach'

3 *Centre for Coastal Dynamics and Engineering (C-CoDE)*, University of Plymouth, 6th December 2006. Talk entitled 'Field observations of morphological change and sediment dynamics from the nearshore of a gravel beach'

4 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 3rd November 2007. Talk entitled 'A year in the life of Slapton Sands - but was it a typical year?' with Tom Deacon (SLFC).

5 *Lancaster University Environmental Imaging Network*, 20th May 2008. Talk entitled 'Optical sensing of gravel sediment transport and characteristics: recent advances and future challenges'.

6 *Coastal and Marine Geology, United States Geological Survey, Santa Cruz*, 28th January 2009. Talk entitled 'Morphodynamics and sediment dynamics of a macrotidal gravel beach'.

7 *Centre for Coastal Science and Engineering, University of Plymouth*, 17th February 2010. Talk entitled 'Turbulence, Sediment Stratification and Altered Resuspension under Waves'.

8 *Grand Canyon Monitoring and Research Center, Flagstaff, Arizona*, 27th February 2012. Talk entitled 'Nearshore Sediment Transport Through the Looking Glass'.

9 *British Geological Survey, Marine Geosciences Division, Edinburgh*, 13th July 2012. Talk entitled 'Digital Grain Size'.

10 *Multibeam in Rivers Summit, Utah State University, Logan, Utah*, February 2014. Talk entitled 'Bed Sediment Classification Using High-Frequency Acoustic Backscatter'.

11 *Glen Canyon Dam Adaptive Management Program Adaptive Management Work Group Meeting, Flagstaff, Arizona*, August 2014. Talk entitled 'Measuring bed sediments for improved sediment budgets and physical habitat assessment'.

12 *USGS Coastal and Marine Geology, Woods Hole, MA*, February 2015. Talk entitled 'The Digital Grain Size Project: Past, Present and Future'.
