

# Daniel Buscombe

---

Research Geologist,  
United States Geological Survey,  
Grand Canyon Monitoring and Research Center  
<http://dbuscombe-usgs.github.com>

## PERSONAL DETAILS

Place of Birth: Greenwich, London, UK (3 December 1981)  
Nationality: British

## CONTACT INFORMATION

USGS, Grand Canyon Monitoring and Research Center  
2255 N Gemini Drive, Flagstaff, AZ 86001  
Tel: 928-726-7216  
email: [dbuscombe@usgs.gov](mailto:dbuscombe@usgs.gov)

## RESEARCH INTERESTS

I am a geomorphologist/sedimentologist with a principal research interest in sediment dynamics, which includes the physical and biochemical makeup of sediment beds in a range of aquatic environments, the role of sediment heterogeneity in the physics of sediment transport, and the morphodynamics (both micro- and macro-scale) that result from sediment transport, sedimentation, stratigraphy and geomorphological forms. I study the complex inter-relations between fluid flows, geomorphology, sediment transport and sedimentology. I investigate these processes by developing novel field-deployed optical and acoustic imaging systems, and computational algorithms for small-scale sediment hydroacoustics, in-situ particle and bed imaging and flow-field/turbulence measurements.

## EDUCATION

**Ph.D. (2008), Coastal Geomorphology/Nearshore Oceanography, University of Plymouth**, Plymouth, UK. *Morphodynamics, Sediment Dynamics and Sedimentation of a Gravel Beach*. Advisor: Prof. Gerhard Masselink.

**BSc (Hons), 1st class (2003), Physical Geography with Minors in Environmental Sciences and Biology, Lancaster University**, Lancaster, UK. *Morphodynamics of a Ridge-and-Runnel System on a Macrotidal Beach*. Advisor: Dr Suzanna Ilic.

## EMPLOYMENT HISTORY

**November 2012 – present.** *Research Geologist, Grand Canyon Monitoring and Research Center, U.S. Geological Survey, Flagstaff, AZ, USA.*

**October 2009 – November 2012.** *Post-doctoral Research Fellow, School of Marine Science & Engineering, University of Plymouth, UK.*

**September, 2008 – 2011.** *Computer Programming Contractor, Marine Biology & Ecology Research Centre, University of Plymouth, UK.*

**October, 2008 – October 2009.** *Post-doctoral Research Scholar, United States Geological Survey, Santa Cruz, California, USA.*

**June, 2008 – September, 2008.** *Research Assistant, School of Geography, University of Plymouth, UK.*

**December, 2007 – April, 2008.** *Research Assistant, School of Earth, Ocean & Environmental Science, University of Plymouth, UK.*

**October, 2004 – July 2008.** *Associate Lecturer and Demonstrator (part-time), School of Geography, University of Plymouth, UK.*

**August 2003 - September, 2004.** *Assistant tutor, Field Studies Council, Castle Head, Grange-over-Sands, UK.*

PROFESSIONAL  
ACTIVITIES

## Membership

British Society for Geomorphology; International Association of Sedimentologists (IAS); American Geophysical Union (AGU); Coastal Zone Network (COZONE); The Challenger Society for Marine Science.

## Journal Review

Arctic; Continental Shelf Research; Earth Surface Processes and Landforms; Geo-Marine Letters; Geophysical Research Letters; Journal of Hydraulic Engineering; Journal of Mountain Science; Journal of Sedimentary Research; Marine Geology; Sedimentology; Sedimentary Geology; Water Resources Research.

## Conferences Organised

On the organising committee for:

- 1 *The Quaternary Research Association's 4th International Postgraduate Symposium*, hosted by the School of Geography at the University of Plymouth 31st August - 2nd September 2005.
- 2 *Young Coastal Scientist and Engineers Conference, 2007* (YCSEC 2007) hosted by the School of Geography at the University of Plymouth 19-21 April 2007.
- 3 *American Geophysical Union Fall Meeting*, December 2007: Co-Convener on the following session: H60: Linking sediment supply, bed-sediment particle size, sediment transport, and bed morphology in fluvial, marine, and aeolian settings.
- 4 *American Geophysical Union Fall Meeting*, December 2013 (forthcoming): Co-Convener on the following session: EP010. Fluvial sediment budgets: Can we do better?

SKILLS

- 1 Community models: General Ocean Turbulence Model (GOTM, <http://www.gotm.net/index.php>); Simulating Waves Nearshore (SWAN; <http://www.swan.tudelft.nl/>); Simulating Waves 'til Shore (SWASH; <http://swash.sourceforge.net/features/features.htm>).
- 2 Operating Systems: Linux (various Ubuntu and Fedora), Microsoft Windows (1998, XP, Vista, 7), Mac OSX.
- 3 Distributed computing using Condor.
- 4 Programming Languages: Matlab, shell scripting (proficient); Fortran, Python (experienced); HTML, C, R (beginner).
- 5 Full UK driving licence. Arizona State driving licence. LANTRA sit-astride ATV qualification.
- 6 Other interests: Phidgets (<http://www.phidgets.com/>), instrument control, machine vision, L<sup>A</sup>T<sub>E</sub>X

SELECTED  
PUBLICATIONS

## JOURNALS

- 1 **Buscombe, D.**, and Masselink, G. (2006) Concepts in Gravel Beach Dynamics. *Earth Science Reviews* 79, 33-52.
- 2 Masselink, G., **Buscombe, D.**, Austin, M.J., O'Hare, T., Russell, P. (2008) Sediment Trend Models Fail to Reproduce Small Scale Sediment Transport Patterns on an Intertidal Beach. *Sedimentology* 55, 667-687.
- 3 Austin, M.J., and **Buscombe, D.** (2008) Morphological Change and Sediment Dynamics of the Beach Step on a Macrotidal Gravel Beach. *Marine Geology* 249, 167-183.
- 4 **Buscombe, D.** (2008) Estimation of Grain Size Distributions and Associated Parameters from Digital Images of Sediment. *Sedimentary Geology* 210, 1-10.
- 5 Masselink, G., and **Buscombe, D.** (2008) Shifting gravel: A case study of Slapton Sands. *Geography Review* 22 (1), 27-31.
- 6 **Buscombe, D.**, and Masselink, G. (2009) Grain Size Information from the Statistical Properties of Digital Images of Sediment. *Sedimentology* 56, 421-438
- 7 Warrick, J.A., Rubin, D.M., Ruggiero, P., Harney, J., Draut, A.E., and **Buscombe, D.** (2009) Cobble Cam: Grain-size measurements of sand to boulder from digital photographs and autocorrelation analyses. *Earth Surface Processes and Landforms* 34, 1811-1821.
- 8 Williams, J., Masselink, G., **Buscombe, D.**, Turner, I., Matias, A., Ferreira, O., Meltje, N., Bradbury, A., Albers, T., and Pan, S. (2009) BARDEX (Barrier Dynamics Experiment): taking the beach into the laboratory. *Journal of Coastal Research* SI 56, 158-162.
- 9 **Buscombe, D.**, Rubin, D.M., and Warrick, J.A. (2010) Universal Approximation of Grain Size from Images of Non-Cohesive Sediment. *Journal of Geophysical Research - Earth Surface* 115, F02015.

## REPORTS

- 1 **Buscombe, D.**, and Scott, T.M. (2008) *Coastal Geomorphology of North Cornwall: St Ives to Trevoze Head*. Internal report for Wave Hub Impacts on Seabed and Shoreline Processes, University of Plymouth. 170pp.
- 2 **Buscombe, D.**, Williams, J. J., and Masselink, G. (2008) *BARDEX (Barrier Dynamics Experiment): experimental procedure, technical information and data report*. Technical report for the European Union Hydralab III, 219pp.

## SOFTWARE

- 1 **Digital Grain Size**. Software for automated analyses of grain size from images of sediment. Source code currently available in Matlab and Python. Webpage <http://dbuscombe-usgs.github.com>
- 2 **Benthic Analysis Tool**. Software for the semi-automation of species identification and measurement in deep-sea ROV/drop frame images. Source code available in Matlab.
- 3 **Sand Simulation Toolbox**. Software for generating 3D discrete particle models consisting of realistic particles (with a size- and shape-distribution) with user-defined properties. Source code available in Matlab.
- 4 **MATSCAT**. Software for analysis of multiple-frequency acoustic backscatter for suspended sediment concentration and particle size. Source code available in Matlab.
- 5 Generic software for serial data acquisition and real-time display. Source code available in Python.
- 6 Software for interfacing with machine-vision ethernet video cameras. Source code available in C.

## INVITED TALKS

- 1 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 4th December 2004. Talk entitled 'A tale of two storms'.
- 2 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 18th November 2006. Talk entitled 'A view from the beach'
- 3 *Centre for Coastal Dynamics and Engineering (C-CoDE)*, University of Plymouth, 6th December 2006. Talk entitled 'Field observations of morphological change and sediment dynamics from the nearshore of a gravel beach'
- 4 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 3rd November 2007. Talk entitled 'A year in the life of Slapton Sands - but was it a typical year?' with Tom Deacon (SLFC).
- 5 *Lancaster University Environmental Imaging Network*, 20th May 2008. Talk entitled 'Optical sensing of gravel sediment transport and characteristics: recent advances and future challenges'.
- 6 *Coastal and Marine Geology, United States Geological Survey, Santa Cruz*, 28th January 2009. Talk entitled 'Morphodynamics and sediment dynamics of a macrotidal gravel beach'.
- 7 *Centre for Coastal Science and Engineering, University of Plymouth*, 17th February 2009. Talk entitled 'Turbulence, Sediment Stratification and Altered Resuspension under Waves'.
- 8 *Grand Canyon Monitoring and Research Center, Flagstaff, Arizona*, 27th February 2012. Talk entitled 'Nearshore Sediment Transport Through the Looking Glass'.
- 9 *British Geological Survey, Marine Geosciences Division, Edinburgh*, 13th July 2012. Talk entitled 'Digital Grain Size'.
