

Daniel Buscombe

Research Geologist, United States Geological Survey,
Grand Canyon Monitoring and Research Center, 2255 N Gemini Drive, Flagstaff, AZ 86001
<http://dbuscombe-usgs.github.com>

PERSONAL DETAILS	Place of Birth: Nationality:	Greenwich, London, UK (3 December 1981) British
CONTACT INFORMATION	Tel: 928-726-7216	email: dbuscombe@usgs.gov
RESEARCH INTERESTS	I am a geomorphologist/sedimentologist with a principal research interest in sediment dynamics, which includes the physical and biochemical makeup of sediment beds in a range of aquatic environments, the role of sediment heterogeneity in the physics of sediment transport, and the morphodynamics (both micro- and macro-scale) that result from sediment transport, sedimentation, stratigraphy and geomorphological forms. I study the complex inter-relations between fluid flows, geomorphology, sediment transport and sedimentology. I investigate these processes by developing novel field-deployed optical and acoustic imaging systems, and computational algorithms for small-scale sediment hydroacoustics, in-situ particle and bed imaging and flow-field/turbulence measurements.	
EDUCATION	<p>Ph.D. (2008), Coastal Geomorphology/Nearshore Oceanography, University of Plymouth, Plymouth, UK. <i>Morphodynamics, Sediment Dynamics and Sedimentation of a Gravel Beach</i>. Advisor: Prof. Gerhard Masselink.</p> <p>BSc (Hons), 1st class (2003), Physical Geography with Minors in Environmental Sciences and Biology, Lancaster University, Lancaster, UK. <i>Morphodynamics of a Ridge-and-Runnel System on a Macrotidal Beach</i>. Advisor: Dr Suzanna Ilic.</p>	
EMPLOYMENT HISTORY	<p>November 2012 – present. <i>Research Geologist, Grand Canyon Monitoring and Research Center, U.S. Geological Survey, Flagstaff, AZ, USA.</i></p> <p>October 2009 – November 2012. <i>Post-doctoral Research Fellow, School of Marine Science & Engineering, University of Plymouth, UK.</i></p> <p>September, 2008 – 2011. <i>Computer Programming Contractor, Marine Biology & Ecology Research Centre, University of Plymouth, UK.</i></p> <p>October, 2008 – October 2009. <i>Post-doctoral Research Scholar, United States Geological Survey, Santa Cruz, California, USA.</i></p> <p>June, 2008 – September, 2008. <i>Research Assistant, School of Geography, University of Plymouth, UK.</i></p> <p>December, 2007 – April, 2008. <i>Research Assistant, School of Earth, Ocean & Environmental Science, University of Plymouth, UK.</i></p> <p>October, 2004 – July 2008. <i>Associate Lecturer and Demonstrator (part-time), School of Geography, University of Plymouth, UK.</i></p> <p>August 2003 - September, 2004. <i>Assistant tutor, Field Studies Council, Castle Head, Grange-over-Sands, UK.</i></p>	
JOURNAL PUBLICATIONS	<p>2006</p> <p>1 Buscombe, D., and Masselink, G. (2006) Concepts in Gravel Beach Dynamics. <i>Earth Science Reviews</i> 79, 33-52.</p>

SOFTWARE

- 1 **Digital Grain Size**. Software for automated analyses of grain size from images of sediment. Source code currently available in Matlab and Python. Webpage <http://dbuscombe-usgs.github.com>
- 2 **PyHum**. Software for reading, processing and analysis of Humminbird sidescan data. Source code available in Python/Cython. Webpage <http://dbuscombe-usgs.github.com>
- 3 **Benthic Analysis Tool**. Software for the semi-automation of species identification and measurement in deep-sea ROV/drop frame images. Source code available in Matlab.
- 4 **Sand Simulation Toolbox**. Software for generating 3D discrete particle models consisting of realistic particles (with a size- and shape-distribution) with user-defined properties. Source code available in Matlab. Webpage <http://dbuscombe-usgs.github.com>
- 5 **MATSCAT**. Software for analysis of multiple-frequency acoustic backscatter for suspended sediment concentration and particle size. Source code available in Matlab.
- 6 Generic software for serial data acquisition and real-time display. Source code available in Python.
- 7 Software for interfacing with machine-vision ethernet video cameras. Source code available in C.

FUNDED PROPOSALS

- 1 *British Geomorphological Society Postgraduate award (£300)* to attend and present at Coastal Sediments 2007, in New Orleans, USA
- 2 *American Geophysical Union Student travel grant (\$600)* to attend the AGU 2007 Fall Meeting in San Francisco, USA
- 3 *International Association of Sedimentologists Grant (700 euros)* to investigate nearshore bedload transport and bedforms with stereo underwater video cameras.
- 4 *International Association for Mathematical Geology research grant (\$2000)* to develop and trial algorithms for quantification of granular properties and coarse-grain sediment transport from images of the sea bed
- 5 *Society for Sedimentary Geology Grant (\$500, President's Fund)* to investigate nearshore bedload transport and bedforms with stereo underwater video cameras.
- 6 *Challenger Society for Marine Science travel grant (£150)* to attend and present at ICCE Hamburg 2008
- 7 *Plymouth Marine Science Education Fund (£250)* to attend and present at ICCE Hamburg 2008
- 8 Co-Investigator; G. Masselink (PI), D.C. Conley, D. Buscombe., (2012 - 2014) *Proto-type Experiment and Numerical Modelling of Energetic Sediment Transport under Waves (PESTS)*. Engineering and Physical Sciences Research Council, UK. EPSRC EP/K000306/1 (£240,000)
- 9 Co-Investigator (multiple PIs J. Schmidt and others), (2013 - 2014) *Sandbars and sediment storage dynamics: long-term monitoring and research at the site, research and ecosystem scales*, Grand Canyon Monitoring and Research Center Biennial Work Plan. Glen Canyon Dam Adaptive Management Work Group (\$2,911,400)
- 10 Co-Investigator (multiple PIs P.E. Grams and others), (2014 - 2017) *Geomorphic Processes and Relations Among Flow Regime, Sediment Flux and Resource Conditions on the Green River in Canyonlands National Park*. National Park Service (\$232,016)
- 11 Co-Investigator (multiple PIs J. Schmidt and others), (2015 - 2017) *Sandbars and sediment storage dynamics: long-term monitoring and research at the site, research and ecosystem scales*, Grand Canyon Monitoring and Research Center Triennial Work Plan. Glen Canyon Dam Adaptive Management Work Group (\$4,253,400).

PROFESSIONAL ACTIVITIES

Membership

British Society for Geomorphology; International Association of Sedimentologists (IAS); American Geophysical Union (AGU); Coastal Zone Network (COZONE); The Challenger Society for Marine Science.

Journal Review

Arctic; Continental Shelf Research; Earth Surface Processes and Landforms; Geo-Marine Letters; Geophysical Research Letters; Journal of Hydraulic Engineering; Journal of Mountain Science; Journal of Sedimentary Research; Marine Geology; Sedimentology; Sedimentary Geology; Water Resources Research.

Conferences Organised

On the organising committee for:

- 1 *The Quaternary Research Association's 4th International Postgraduate Symposium*, hosted by the School of Geography at the University of Plymouth 31st August - 2nd September 2005.
- 2 *Young Coastal Scientist and Engineers Conference, 2007 (YCSEC 2007)* hosted by the School of Geography at the University of Plymouth 19-21 April 2007.
- 3 *American Geophysical Union Fall Meeting*, December 2007: H60. Linking sediment supply, bed-sediment particle size, sediment transport, and bed morphology in fluvial, marine, and aeolian settings. Co-convened with David Rubin (USGS), David Topping (USGS), and Scott Wright (USGS).
- 4 *American Geophysical Union Fall Meeting*, December 2013: EP010. Fluvial sediment budgets: Can we do better? Co-convened with David Topping (USGS), Paul Grams (USGS), and Susannah Erwin (USGS).

SKILLS

- 1 Community models: General Ocean Turbulence Model (GOTM, <http://www.gotm.net/index.php>); Simulating Waves Nearshore (SWAN; <http://www.swan.tudelft.nl/>); Simulating Waves 'til Shore (SWASH; <http://swash.sourceforge.net/features/features.htm>).
- 2 Linux. High performance and distributed computing.
- 3 Programming Languages: Python, shell scripting, Matlab (proficient); Cython, Fortran (experienced); HTML, C, R (beginner).

- 4 Full UK driving licence. Arizona State driving licence. LANTRA sit-astride ATV qualification.
- 5 Other interests: instrument control, machine vision, L^AT_EX GUI development, machine learning, spectral analysis

INVITED TALKS

- 1 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 4th December 2004. Talk entitled 'A tale of two storms'.
- 2 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 18th November 2006. Talk entitled 'A view from the beach'
- 3 *Centre for Coastal Dynamics and Engineering (C-CoDE)*, University of Plymouth, 6th December 2006. Talk entitled 'Field observations of morphological change and sediment dynamics from the nearshore of a gravel beach'
- 4 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 3rd November 2007. Talk entitled 'A year in the life of Slapton Sands - but was it a typical year?' with Tom Deacon (SLFC).
- 5 *Lancaster University Environmental Imaging Network*, 20th May 2008. Talk entitled 'Optical sensing of gravel sediment transport and characteristics: recent advances and future challenges'.
- 6 *Coastal and Marine Geology, United States Geological Survey, Santa Cruz*, 28th January 2009. Talk entitled 'Morphodynamics and sediment dynamics of a macrotidal gravel beach'.
- 7 *Centre for Coastal Science and Engineering, University of Plymouth*, 17th February 2010. Talk entitled 'Turbulence, Sediment Stratification and Altered Resuspension under Waves'.
- 8 *Grand Canyon Monitoring and Research Center, Flagstaff, Arizona*, 27th February 2012. Talk entitled 'Nearshore Sediment Transport Through the Looking Glass'.
- 9 *British Geological Survey, Marine Geosciences Division, Edinburgh*, 13th July 2012. Talk entitled 'Digital Grain Size'.
- 10 *Multibeam in Rivers Summit, Utah State University, Logan, Utah*, February 2014. Talk entitled 'Bed Sediment Classification Using High-Frequency Acoustic Backscatter'.
- 11 *Glen Canyon Dam Adaptive Management Program Adaptive Management Work Group Meeting, Flagstaff, Arizona*, August 2014. Talk entitled 'Measuring bed sediments for improved sediment budgets and physical habitat assessment'.
