

Daniel Buscombe

Research Geologist,
United States Geological Survey,
Grand Canyon Monitoring and Research Center
<http://dbuscombe-usgs.github.com>

PERSONAL DETAILS

Place of Birth: Greenwich, London, UK (3 December 1981)
Nationality: British

CONTACT INFORMATION

USGS, Grand Canyon Monitoring and Research Center
2255 N Gemini Drive, Flagstaff, AZ 86001
Tel: 928-726-7216
email: dbuscombe@usgs.gov

RESEARCH INTERESTS

I am a geomorphologist/sedimentologist with a principal research interest in sediment dynamics, which includes the physical and biochemical makeup of sediment beds in a range of aquatic environments, the role of sediment heterogeneity in the physics of sediment transport, and the morphodynamics (both micro- and macro-scale) that result from sediment transport, sedimentation, stratigraphy and geomorphological forms. I study the complex inter-relations between fluid flows, geomorphology, sediment transport and sedimentology. I investigate these processes by developing novel field-deployed optical and acoustic imaging systems, and computational algorithms for small-scale sediment hydroacoustics, in-situ particle and bed imaging and flow-field/turbulence measurements.

EDUCATION

Ph.D. (2008), Coastal Geomorphology/Nearshore Oceanography, University of Plymouth, Plymouth, UK. *Morphodynamics, Sediment Dynamics and Sedimentation of a Gravel Beach*. Advisor: Prof. Gerhard Masselink.

BSc (Hons), 1st class (2003), Physical Geography with Minors in Environmental Sciences and Biology, Lancaster University, Lancaster, UK. *Morphodynamics of a Ridge-and-Runnel System on a Macrotidal Beach*. Advisor: Dr Suzanna Illic.

EMPLOYMENT HISTORY

November 2012 – present. *Research Geologist, Grand Canyon Monitoring and Research Center, U.S. Geological Survey, Flagstaff, AZ, USA.*

October 2009 – November 2012. *Post-doctoral Research Fellow, School of Marine Science & Engineering, University of Plymouth, UK.*

September, 2008 – 2011. *Computer Programming Contractor, Marine Biology & Ecology Research Centre, University of Plymouth, UK.*

October, 2008 – October 2009. *Post-doctoral Research Scholar, United States Geological Survey, Santa Cruz, California, USA.*

June, 2008 – September, 2008. *Research Assistant, School of Geography, University of Plymouth, UK.*

December, 2007 – April, 2008. *Research Assistant, School of Earth, Ocean & Environmental Science, University of Plymouth, UK.*

October, 2004 – July 2008. *Associate Lecturer and Demonstrator (part-time), School of Geography, University of Plymouth, UK.*

August 2003 - September, 2004. *Assistant tutor, Field Studies Council, Castle Head, Grange-over-Sands, UK.*

PROFESSIONAL
ACTIVITIES

Membership

British Society for Geomorphology; International Association of Sedimentologists (IAS); American Geophysical Union (AGU); Coastal Zone Network (COZONE); The Challenger Society for Marine Science.

Journal Review

Arctic; Continental Shelf Research; Earth Surface Processes and Landforms; Geo-Marine Letters; Geophysical Research Letters; Journal of Hydraulic Engineering; Journal of Mountain Science; Journal of Sedimentary Research; Marine Geology; Sedimentology; Sedimentary Geology; Water Resources Research.

Conferences Organised

On the organising committee for:

- 1 *The Quaternary Research Association's 4th International Postgraduate Symposium*, hosted by the School of Geography at the University of Plymouth 31st August - 2nd September 2005.
- 2 *Young Coastal Scientist and Engineers Conference, 2007* (YCSEC 2007) hosted by the School of Geography at the University of Plymouth 19-21 April 2007.
- 3 *American Geophysical Union Fall Meeting*, December 2007: H60. Linking sediment supply, bed-sediment particle size, sediment transport, and bed morphology in fluvial, marine, and aeolian settings. Co-convened with David Rubin (USGS), David Topping (USGS), and Scott Wright (USGS).
- 4 *American Geophysical Union Fall Meeting*, December 2013: EP010. Fluvial sediment budgets: Can we do better? Co-convened with David Topping (USGS), Paul Grams (USGS), and Susannah Erwin (USGS).

SKILLS

- 1 Community models: General Ocean Turbulence Model (GOTM, <http://www.gotm.net/index.php>); Simulating Waves Nearshore (SWAN; <http://www.swan.tudelft.nl/>); Simulating Waves 'til Shore (SWASH; <http://swash.sourceforge.net/features/features.htm>).
- 2 Operating Systems: Linux (various Ubuntu and Fedora), Microsoft Windows (1998, XP, Vista, 7), Mac OSX.
- 3 Distributed computing using Condor.
- 4 Programming Languages: Matlab, shell scripting, Python (proficient); Fortran (experienced); HTML, C, R (beginner).
- 5 Full UK driving licence. Arizona State driving licence. LANTRA sit-astride ATV qualification.
- 6 Other interests: Phidgets (<http://www.phidgets.com/>), instrument control, machine vision, L^AT_EX

SELECTED
PUBLICATIONS

JOURNALS

SOFTWARE

- 1 **Digital Grain Size**. Software for automated analyses of grain size from images of sediment. Source code currently available in Matlab and Python. Webpage <http://dbuscombe-usgs.github.com>
- 2 **PyHum**. Software for reading, processing and analysis of Humminbird sidescan data. Source code available in Python. Webpage <http://dbuscombe-usgs.github.com>
- 3 **Benthic Analysis Tool**. Software for the semi-automation of species identification and measurement in deep-sea ROV/drop frame images. Source code available in Matlab.
- 4 **Sand Simulation Toolbox**. Software for generating 3D discrete particle models consisting of realistic particles (with a size- and shape-distribution) with user-defined properties. Source code available in Matlab. Webpage <http://dbuscombe-usgs.github.com>
- 5 **MATSCAT**. Software for analysis of multiple-frequency acoustic backscatter for suspended sediment concentration and particle size. Source code available in Matlab.
- 6 Generic software for serial data acquisition and real-time display. Source code available in Python.
- 7 Software for interfacing with machine-vision ethernet video cameras. Source code available in C.

INVITED TALKS

- 1 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 4th December 2004. Talk entitled 'A tale of two storms'.
- 2 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 18th November 2006. Talk entitled 'A view from the beach'
- 3 *Centre for Coastal Dynamics and Engineering (C-CoDE)*, University of Plymouth, 6th December

2006. Talk entitled 'Field observations of morphological change and sediment dynamics from the nearshore of a gravel beach'
- 4 *Slapton Research Seminar, Field Studies Council, Slapton Ley*, 3rd November 2007. Talk entitled 'A year in the life of Slapton Sands - but was it a typical year?' with Tom Deacon (SLFC).
 - 5 *Lancaster University Environmental Imaging Network*, 20th May 2008. Talk entitled 'Optical sensing of gravel sediment transport and characteristics: recent advances and future challenges'.
 - 6 *Coastal and Marine Geology, United States Geological Survey, Santa Cruz*, 28th January 2009. Talk entitled 'Morphodynamics and sediment dynamics of a macrotidal gravel beach'.
 - 7 *Centre for Coastal Science and Engineering, University of Plymouth*, 17th February 2009. Talk entitled 'Turbulence, Sediment Stratification and Altered Resuspension under Waves'.
 - 8 *Grand Canyon Monitoring and Research Center, Flagstaff, Arizona*, 27th February 2012. Talk entitled 'Nearshore Sediment Transport Through the Looking Glass'.
 - 9 *British Geological Survey, Marine Geosciences Division, Edinburgh*, 13th July 2012. Talk entitled 'Digital Grain Size'.
 - 10 *Multibeam in Rivers Summit, Utah State University, Logan, Utah*, February 2014. Talk entitled 'Bed Sediment Classification Using High-Frequency Acoustic Backscatter'.
